Intuitive Concepts is proud to announce its membership with the Building Industry Association (BIA) of Central Ohio. This prestigious organization represents single and multi-family homebuilders, developers, and remodelers throughout the region.

“In today’s economy, people want more for their money. With the green movement bringing focus to renewable and sustainable approaches, Feng Shui brings an additional dimension to projects. It is a wise approach to master planning as it affects traffic flow, overall construction, landscaping, and interior of the space. It is energy and risk management and goes well beyond decorating, which is how most people think of Feng Shui,” said Diana Garber, Creative Environment Officer© for Intuitive Concepts.

The BIA enables Intuitive Concepts to provide more resources for clients, and is a vital link to the building industry. As more developers and builders utilize Feng Shui, all of central Ohio benefits. Intuitive Concepts is honored to bring this unique concept to the community.
