Reference for Diana Garber

To whom it may concern:

I've known Diana Garber for the last 6 years. We met while working for one of Columbus's major corporations. Diana is a woman of high integrity and character in both the work place and in her personal life. She is one of the most caring people I've ever met and a great source of inspiration.

We became friends after a business trip to Chicago and had the opportunity to talk about life and feng shui. Afterwards I personally experienced increased wealth due to recommendations she made (\$20,000 in a matter of months).

More recently she performed a personal clearing on me. She pinpointed an area on my back that I hadn't mentioned. It was an area of nagging back pain that plagued me for years. After following her advice, I have been able to get up in the morning and move freely with no pain. To be perfectly honest with you, I don't remember that last time I could say that. I am a suspicious person by nature, so I've been paying close attention over the last 4 to 5 weeks and still no pain.

I recommend Diana with no reservations to all of my family and friends. She is moral and honest. If she can help, she will do so joyfully; if not, she will tell you that too.

Sincerely,

Kimberly Riffe
