To Whom It May Concern:

Intuitive Concepts and Diana Garber are valued clients since 2005. Diana has a uniquely professional and outstanding outlook when it comes to our business dealings. It is apparent this approach is company-wide. Every person I have dealt with at Intuitive Concepts seems to model Diana's philosophy which is respectful, efficient, courteous, and detail oriented (providing exactly what I need). Instead of submitting a service request and demanding it be immediately handled, they take into account my turn-around time and deadlines.

They've included me in strategy meetings to obtain my input on projects. This is rare indeed as it's better to be included in the formulation of a project (that I ultimately will manage), than respond to one's expectations (when their wants may not match their needs, capabilities, or budget).

I happily recommend Intuitive Concepts and Diana Garber to anyone in need of Feng Shui consultation services. I not only appreciate her professionalism and expertise, but more importantly, her commitment to making people smile. Their motto, "Changing the world one business, one home, one person at a time," is on every page of their website. A hefty goal and one they are committed to.

They are an excellent candidate for the Torch Award, which is based on ethics and integrity.

Respectfully submitted,

Karen Hobor
