Bad chi focus of resident's practice

By JOHN SHERIDAN

Suburban News Reporter

Oppressive debt, rocky relationships and poor health all could be attributed to bad luck, bad communication and bad habits.

Diana Garber would offer another explanation.

Garber is an expert in the Chinese art of Feng Shui, the arranging of one's environment to be in tune with the natural harmony of nature's energy.

Feng Shui is a complex Chinese science using ancient wisdom to glean peace and balance with Chi, or life force.

The consultation

For a typical Feng Shui home treatment Garber will visit the home, take measurements with Feng Shui tools and check the house's alignment with ancient and time-tested formulas.

A example of Feng Shui success is when one of her clients reported having seizures.

Diana Garber is a renowned energy management consultant. Formerly, Diana was a Certified Business Continuity Professional and Vice President of Business Continuity and Disaster Recovery for a Fortune 100 company. She has consulted on recovery of a number of national disasters: i.e., New York terrorist attack, hurricanes Isidore and Lili.

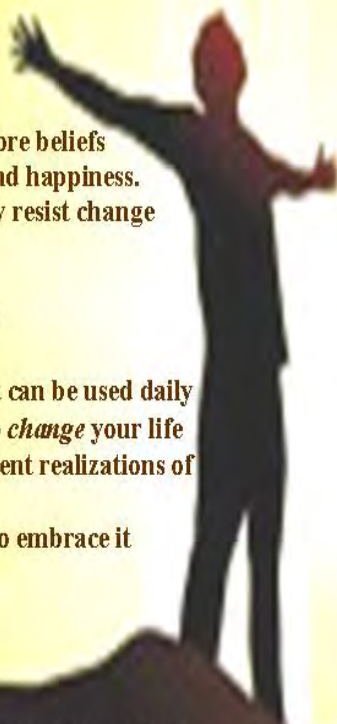

Her company, Intuitive Concepts, was founded in 1998.

Change is at the core of our thoughts. We cannot evolve outwardly until we realize and mobilize an inward goal.

This workshop delves deeply into barriers and core beliefs that prevent us from achieving health, wealth, and happiness. You will learn the stages of *change*, why you may resist change and ultimately how to embrace it.

Upon completion, participants should be able to:

- Realize the importance of *change*
- Implement a simple formula for *change* that can be used daily
- Answer ten questions that have the power to *change* your life
- Strategize to recognize roadblocks that prevent realizations of goals
- Understand why we resist *change* and how to embrace it

Re: Invitation to AAPI 30th Annual Convention in Long Beach, CA from
June 27 to July 1, 2012

Dear Ms. Diana Garber,

The 30th Annual Convention of American Association of Physicians of Indian Origin (A-API) is being held from June 27 to July 1, 2012 at Long Beach Convention Center, Long Beach, CA.

We extend this invitation on behalf of the AAPI Executive Committee, Board of Trustees and AAPI Convention Team to be one of the distinguished speaker at our non CME Alliance Womens Forum. Your expertise and your knowledge will give our physician community a unique insight into the world of Feng Shui and how it can impact the medical community. We will be glad if you agree to our proposal. Since we are not able to provide remuneration for your speaker engagement we will be providing an exhibitor booth as inkind reimbursement. Please review <http://www.AapiConvention.org> site to get more info on Exhibitor booth rules and policies. Also as requested we are happy to have you as a sponsor for \$5000 for AAPI Convention Mobile App/site and half page Ad in AAPI Souvenir for \$1500.

American Association of Physicians of Indian Origin (A-API) is the premier ethnic medical association in the United States with a constituency of over 52,000 physicians and over 20,000 Medical Students, Residents and Fellows. Headquartered in Oak Brook, Illinois, AAPI serves as an umbrella organization for more than 150 member associations nationwide. Founded in 1982, AAPI's mission is to promote and protect the interests of its members through programs and initiatives in advocacy, industry leadership, professional development, membership benefits and community involvement.

We would be honored to have you join us. Your participation will definitely benefit the AAPI community and we will appreciate your acceptance. We will be happy to work with you for final program details, finalizing your sponsorship marketing material and other logistics.

Sincerely,

Sunita Kanumury, MD

Sudeep Kukreja, MD President, AAPI

The earth acupuncture you did worked wonders. We all feel much better; have more energy, and the house feels more stable. This definitely, definitely improved the energy. Even the cancer energy is gone. Now it's a rebuilding process.

Thank you so much, Diana...Anna, Psychologist

Testimony of an Executive

Your advice has been priceless. Just thinking of where we would be today had we not listened to you. Just weeks ago the building was torn down for further growth and parking lot space. This would have meant we would have been forced to move twice in two years. Nothing is worse for a company than to be uprooted and preoccupied in moving, changes in address, and our customers not knowing where to find us. We had our lease in hand ready to sign and **you helped us make the right decision to avoid this mistake.** ~Darla

“I proudly and humbly send my love and appreciation to you and Intuitive Concepts. You've guided me into an even more abundant and fulfilling life, career, and future as I make use of the powerful tools you (and Intuitive Concepts) have taught me to carry with me. I will live in balance and I will win every day and achieve the best of my utmost being, as I live in love and in service to myself and others.” ~Charis

Tansky expansion goes green — and serene (Sunday May 6, 2012) Excerpts from article by business journalist: Steve Wartenberg

When Diana Garber crunched the feng-shui numbers, it was clear to her that the energy flow was off with the Rt. 161 entrance to **Tansky Sawmill Toyota in Dublin**. The solution, she said, was to move the entrance several feet to the east.

The new entrance is one of the many feng-shui and “green” design initiatives in Tansky’s \$10 million construction project to build a showroom and expand its service department. Garber said she thinks Tansky will be the **first auto dealership in the country to achieve LEED status and be designed applying the principles of feng shui, the ancient Chinese method of maximizing positive energy**. Feng shui experts use compasses, diagrams and mathematical formulas and a recognition of five elements — water, fire, earth, wood and metal — to achieve harmony in homes, offices and buildings.

“People should feel comfortable and have a sense of safety, security and relaxation, but not know why,” Garber said. “If someone walks in and says ‘You’ve done feng shui,’ we haven’t done our job.” The idea to combine feng shui and environmental sensitivity comes from dealership owner Judy Tansky. A few years ago, she hired Garber to redesign her home — and liked the results.

In the end, Tansky is a business — and the goal is to sell more vehicles. Will all the feng shui help? “I don’t know why it wouldn’t,” Garber said. “When you feel safe and secure and that the people here care about you, customers will be more inclined to make that commitment.”

Health: Energy and Harmony

*Diana performed a classic Feng Shui analysis on our new house. This was a fascinating experience. Diana's work has helped us make decisions on the arrangement of our new house. **She is highly insightful and terrific to work with on this type of project** ~ Jeff & Robin*

Testimony of a CEO

*"I'm a facts-and-figures businessman, and possess a strong Christian faith; therefore, I was a bit apprehensive in the beginning about Feng Shui. Fortunately, my experience has proven that it is **practical, factual, and quantifiable**. I consider Diana to be a **valuable strategic partner** so she's now helping me with other projects. I highly recommend that you consider improving your life, and suggest that you **don't hesitate hiring Diana Garber** of Intuitive Concepts if you want to enhance your living and working environments." ~Steve*

July 8, 2012

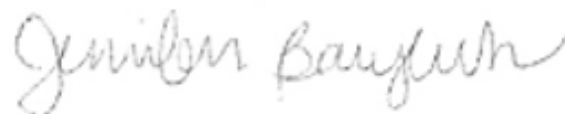

To Whom It May Concern:

I saw Diana speak at an event in 2010 and was intrigued by her knowledge and sincerity. Shortly after that event our son was diagnosed with advanced leukemia, and I wondered if she could help. We started working with Intuitive Concepts right away. At that time, our son was receiving intense chemotherapy treatments, wasn't able to attend school, and there was the potential for frequent hospital visits. In addition, we moved to OH in 2007 for my husband's career, but that wasn't unfolding as we'd planned. Stress and sleep were issues for many of us. I also wanted to find a means of stress relief and self-expression in a way that helped others and allowed me to contribute to our household.

We're about 80% into our remedies. Our son is in remission. My husband had a different opportunity surface and is enjoying work more. We're sleeping better. I'm teaching yoga, and building a business with products my family uses and I heartily endorse. We're not 100% there, but we're working on it. This is a process after all. When Diana asked if the investment was worth it, our answer is yes – Intuitive Concepts gave us a prioritized plan of action and a sense of control. Many people with cancer feel they've lost control or have no control. Diana told us about a book she read during her corporate career, "Influence Without Authority." The title sums up our experience. It's nice to know there is something one can do to change things.

I heartily recommend Intuitive Concepts to anyone who would like to improve their well being and take control of their life.

Sincerely,

Jennifer Baryluk, CYT

Testimony from an Artist

*“I have known Diana for several years, and have found her to always be **fair and willing to both listen intently and to speak openly her thoughts**. She maintains an extraordinary belief that good can be caused in the world, and has made it her mission to forward that momentum in the world wherever and whenever she has an opportunity.*

*When she speaks of her clients, it is **always positive and with respect for their privacy**. It seems as though she genuinely cares that each customer be served to the best of her ability.*

In short, I would recommend not only her obvious and acclaimed talents, but also her person, for anyone looking for advice that stems from her years of experience as a Feng Shui consultant and dedicated servant.” ~Dale

Testimony from a Corporate Executive

“As part of our Feng Shui checkup, you advised us to pay attention to potential symptoms during a specific time. Normally, I would have ignored it, but it was as though you whispered the reminder in my ear so I went to the emergency room. It turned out to be a blood clot in my lung which can be fatal!

Thank you for your on-going commitment, and watching over us!
I don't know how people can afford NOT to do this.” ~Dan

What does your home or office have in store for you? Manage your environment consciously or consciously manages you.©

*My husband and I have both seen tremendous results in our health since Diana Garber did a Feng Shui analysis in our homes in Ohio and Arizona. It's important to say **we initially focused on my husband's seizure disorder.***

***My husband has not had a Grand Mal seizure since 2001.** There have been very minor ones, but they aren't as serious or frequent. **At this time, we believe surgery is no longer necessary.** My husband's seizure disorder only improved after making changes in our home based on Feng Shui. He had not done anything medically different.*

We've since had Diana evaluate our ranch in Scottsdale, and make suggestions for my breast cancer and liver problems.

~CEO's Family

Testimony of a Physician

*“We hired you because our daughter was going to have major surgery. You did our home, provided good energy dates for her surgery, and prepared a room for her recovery. The **surgery went very well**. She only took one pain pill during the healing process, and was up and about in no time. Thank you!”* ~Dr. Sheng

Client Testimonies

“My Grand Mal seizures went away.”

“We get along much better, and do more together.”

“My depression and digestive issues are gone!”

“My blood pressure returned to normal.”

“I contacted you for a good surgery date. I needed the odds in my favor since age, health concerns, and weight are issues. Even the doctors were amazed at how well it went, and how well I’m doing. You made a believer of me!” ~Martha

What does your home or office have in store for you? Energy fields where we live and work affect us. Manage your environment consciously or it unconsciously manages you.©

Testimony of a Corporate Executive

*“I am amazed with Diana’s **compassion, level of knowledge, and enthusiasm**. She demonstrates that change affects all areas of one’s life: wellness, relationships, business success, overall satisfaction, and abundance. We (my family and business partners) followed her advice, and have experienced improvements in all those areas. Diana is methodical, committed to client education, and loyally devoted to each person she works with. She takes their progress, and more importantly – their results, seriously and is steadfast regarding them reaching their goals.”*

Found the City that Makes them Happy

We moved to the foothills north of Boise, Idaho (from central Ohio) after researching the cities you suggested — and we love it! Our families thought we were crazy, and the newly constructed home and area have far exceeded our expectations.

I encourage others to seek your help to determine locations in which to maximize their potential. As eternal spiritual beings. ~Dave & Jane

Diana Makes Me Feel Special ~ Very Personalized Service

*Diana Garber came to my home for a residential consult. I was **thoroughly impressed with her total involvement** in making the **experience exceptional** for me. Her **professionalism and integrity go beyond expectation**, and I am so grateful that I chose her to **Feng Shui** my home. I've already experienced shifts of energy and look forward to progress on my goals.*

*My sights are now on my work location at the **Breathing Association**. We are engaging Diana there as well. ~Dr. Marie E. Collart*

Testimonials

*Diana already worked on our business and is now working on our home, and it's amazing how on target the analysis is there too. Family health issues, relationship dynamics, drains on motivation – it's all there. Things we were putting off or didn't get finished, we're now enthused about -- and **knowing our Feng Shui action plan gives us confidence in our choices.** ~Phil*

***I'm not experiencing the constant pain that I previously had and I'm really sleeping at least 6 hours each night! I can honestly say that at this time in my life I really feel great about myself and my health is improving! I really feel Feng Shui is an alternative that is working for me, just when I thought we were out of traditional options!! Thank you so very much for entering our lives!!!** ~Wanda*

Testimony from a Cancer Survivor

“When we started working together, I had 20 inflamed lymph nodes in my abdomen and was told I had a little more than a year to live. We followed your recommendations which ultimately included moving because the house and geopathic stress was contributing to my illness. The nodes shrunk, some returned to normal, and there isn’t any new growth. It’s been three years. I am pain free and loving life.” Jeff

Testimony of an Executive

*“After only three months of working with Intuitive Concepts, **our sales increased 100%** from the previous year’s quarter and our return clients grew 64%.*

*I was astonished when results continued. Our **sales are up 109%** from this time last year and the average ticket sale is now 119%. I continue to hire Intuitive Concepts for yearly updates and insights to ensure our progress continues.*

If you’re a business owner who wants to lead your competition, make Intuitive Concepts a part of your team.” ~Carolyn

Why do a Building Assessment?

Your analysis identified several themes, some of which were auto accidents, dental and eye problems, arthritis, and the potential for tumors. Wouldn't you know we had an automobile accident after moving in. I've never had dental problems and now have a cavity. My fiancée and son also now have dental issues. Three of our dogs developed cysts, and one was just diagnosed with arthritis.

It's amazing how our environment can give us strength or take it away. It's such a relief to know there's something we can do about it, it's a holistic approach and more importantly to have a specific action plan. Now changes we make have purpose, and we're doing it right the first time... which saves money and effort. Thanks, Diana!

Energy Days

I have been intrigued by your articles in this series of newsletters, especially regarding the moons, eclipses, and retrogrades, So much so, in fact, that I went to your archived newsletter on your website.

*My curiosity stemmed from problems we had with a sprinkler system we installed last year. Being a water year, you mentioned problems will exist with anything that has to do with water. After reading your retrograde article, I looked back at the calendar to learn we installed the sprinkler system during mercury retrograde. We paid too much money, had too many problems, and we are still (nearly a year later) dealing with a faulty system. **Just as you had written, the project attracted problems from Day One!***

We will be sure to note the energy days you provide and certainly not begin any projects during mercury retrograde. ~EMW

*I am writing to express my **sincere gratitude and thanks to Diana Garber for the Earth Acupuncture** that was performed around my home in September 2006.*

*Although my husband was skeptical at first, given the cost of the procedure and the fact that he is a Neurosurgeon. All skepticism soon faded after several events. Before the Acupuncture was done, my husband had come down with a **terrible case of the shingles, my son had a rash that would not go away for several months, and I had developed bronchitis.** All these illnesses popped up around the same time due to some things that had come up regarding the energy of our home we had just moved into. **Within just a week after the Acupuncture was done our symptoms began to subside, and within 2 weeks they disappeared.***

*About 1 month following the procedure something else happened. I was sitting in my living room (which has quite a number of windows facing an open field) when all of a sudden the sky turned green and the wind picked up. I spotted a tornado headed straight toward me! I ran into the bathroom for safety and when I came out I was astonished! **The tornado skipped around my house** and followed down the side of my yard leveling one of my trees and taking out my mail box. It did not touch my house! Furthermore, the tree it took out was outside the line of Acupuncture. My husband believes that some sort of magnetic interference from the steel rods used for the earth acupuncture embedded in the ground caused the tornado to change its course. Coincidence? I think not.*

Testimony of a Health Professional

*“Diana and I were part of a small group of hand-picked professionals -- the **‘best of the best in their field.’** Diana was asked to help with the remodel of the building.*

*I’ve worked in my field for 16 years, and **working with Diana was the first and only time I had been cared for in such a way.** She worked tirelessly with each of us listening to our questions and concerns, and to help us and the center become a success in the most happy and healthy environment this location could offer.”*

EMT Amazed by Diana Garber's Observations

*Diana...You asked me to observe incidents this year to see if there was an **increase in broken bones** from people hurting themselves (since I work as a paramedic).*

*We saw a high volume of people with broken or dislocated bones not just at the station where I work at, it was all over. **You asked me to pay attention to that to see if the trend you discussed for the year would be correct. It was!***

24 Mountains ~ My Dream Home

*I want to **build my dream home** and asked you what I should look for. You did an analysis for me called 24 mountains based on my preferences and my circumstances. It was quite complicated but I like how you narrowed it down to an understandable format.*

*Now I feel confident in looking for property so that when I make my selection, you'll help me **build the best house** for me that I'll spend the rest of my life in...*
