***This Workshop sells out every time!***

### **Myers-Briggs® Type Indicator (MBTI)**

This workshop is likely UNlike anything you've taken before, even if you have taken Myers-Briggs! We do a lot of discovery work around who you are, role play, and discuss fun facts. Many of those who attend are back for more with their friends and family, and always learning something new. People have discovered new career options and reinvented relationships. Literally, one couple said it saved their marriage!

The Myers-Briggs® (MBTI) workshop is a session which reveals how and where you focus your attention. Each of us has many personality traits or characteristics which define us, many of which control our attitude and our actions on a subconscious level. Once we are aware of the subconscious (yet influential) patterns, we can use them to benefit us rather than to be at the unknowing mercy of these patterns.

This 4-hour workshop will show you how you have been viewing the world, the way you absorb information, the manner in which you make decisions, and finally .. the method you use to deal with the outside world. You will be able to see how you have been handling yourself, how you are interacting with others, and how you are conducting yourself within your environment.

Most importantly you will see the reasons behind your thoughts and actions:

- Do you talk a lot, or are you a person that doesn't say much?
- Are you a sensitive person who is thoughtful, understanding, perceptive, and charismatic; or are you someone who people deem insensitive because you are precise, exact, and fact-based?
- Are you the type of person who lives by lists and the calendar; or do you wish you were more organized?

These questions and many more will be answered at the workshop. Plus you'll receive helpful charts and have the opportunity to role play with other participants. MBTI® is used by universities, corporations, and therapists for team building and relationship counseling. Understand your life preferences and you'll identify sources of your stress!

This workshop is so informative and fun, we have people that repeat the class each time we offer it. Join us for an intimate and interactive experience!

**IDEAL© Deliverables:**

- Identify where you focus your attention
- Discover how to transform challenging relationships
- Evaluate new approaches to difficult situations
- Assess your decision-making and planning processes
- Learn how to manifest a different future

*It's all about you! Capitalize on your creativity, your public image, and your social interactions.*
